

5 PIN SCORING

Although scoring may appear difficult, it is really quite simple. The following is a typical example of scoring a game of 5 pins:

FIRST FRAME:

You knock down the 5 - 3 - 2 pins, using three balls. Count 10 points.
SCORE: 10 POINTS.

SECOND FRAME:

You knock down all the pins, using three balls. Count 15 points.
SCORE: 25 POINTS

THIRD FRAME:

You use only two balls to knock down all the pins. This is called a SPARE. Count 15 points. (However, as each frame's count is for three balls, add the count from the first ball in the next frame, to this frame.)
SCORE: INCOMPLETE

FOURTH FRAME:

You knock down the 3-pin with the first ball. Add the 3 points to the 15 points of the spare, making a count of 18 in the third frame.
SCORE: 43 POINTS. (Mark in the third frame.)
You then knock down the 5-pin with the second ball and the left 2-pin with the third ball. This makes the fourth frame count $3+5+2=10$. Count 10 points.
SCORE: 53 POINTS.

FIFTH FRAME:

Now in your Stride, you make a strike. (All pins knocked down with the first ball.) Count 15 points, plus all points scored with the next two balls bowled.
SCORE: INCOMPLETE

SIXTH FRAME:

You make another strike! Credit the fifth frame with 15 points. Sixth frame count is 15 points plus score made with next two balls bowled.
SCORE: INCOMPLETE.

SEVENTH FRAME:

With the first ball, you knock down the 5-pin. (Headpin) This completes the fifth frame. Count $15 + 15 + 5 = 35$ points.
SCORE: 88 POINTS. (Fifth Frame)

On the second ball you knock down the right 2 and 3 pins. This completes the sixth frame. Count $15 + 10 = 25$ points
Score: 113 points. (Sixth Frame)

With the third ball you knock down the left 2-pin. Count 12 points
Score: 125 Points

EIGHTH FRAME:

Strike! Count 15 points plus score made with next 2 balls.
SCORE: INCOMPLETE.

NINTH FRAME:

Strike! Count 15 points plus score made with next 2 balls.
SCORE: INCOMPLETE.

TENTH FRAME:

Strike! This completes the eighth frame. Count $15 + 15 + 15 = 45$ points.
SCORE: 170 POINTS (Eighth Frame)

The strike in the tenth frame allows you two more balls to complete the frame. With the second ball you knock down the left 3-pin. Ninth frame count $15 + 15 + 3 = 33$.
SCORE: 203 POINTS (Ninth Frame)

You knock down the 3 and 2 pins on the right side with the third ball. Tenth frame count $15 + 3 + 5 = 23$ points.

FINAL GAME SCORE: 226 POINTS
